CREATING A DIGITSET T-SHIRT IS VERY EASY

Start browsing this catalogue: following a few easy steps, you will select the model that suits you among the different types and fabrics available.

To send us an order, please photocopy and fill in the form you find at the end of the catalogue. We will send you a graphic proof of the product to be approved. Consider that the production will start after your order confirmation and once the shipment date is defined.

1. DEFINE THE MODEL

The basic of the graphic, as well as the sizes, is standard, but it differs according to the type of sport. You have the option to select the type of neck and sleeve.

2. THE FABRICS

All fabrics have been selected to offer the best result in comfort, resistance and transpirability. There are two options for BASKET clothing.

3. GRAPHICS AND BASIC COLOURS

You could be inspired by the T-shirts on the market or invent a new graphics, never used before; first of all, have an idea in mind.

With regards to the colours, we have created a standard table with the colours which are mostly employed in sport; you can ask for it and we will send it to you.

If you know the code to use, you can tell us indicating it in the notes section.

Attention: many colours seen on the computer may be different once printed.

4. LOGO AND SPONSOR PLACEMENT

Each image to insert on the product (the company logo, sponsor etc.) must be provided in high definition or in vector format with relative measures, and where possible, its pantone code.

In order to have a precise position, in the next page, we have provided useful information (for the sleeves for example it is better to specify that the side considered relates to a worn t-shirt).

*** we specify that we will reduce or enlarge the files every two sizes in proportion of the t-shirt**

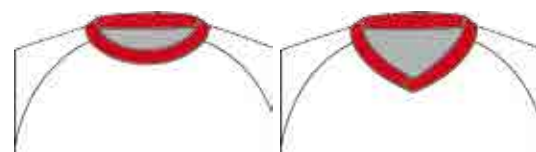

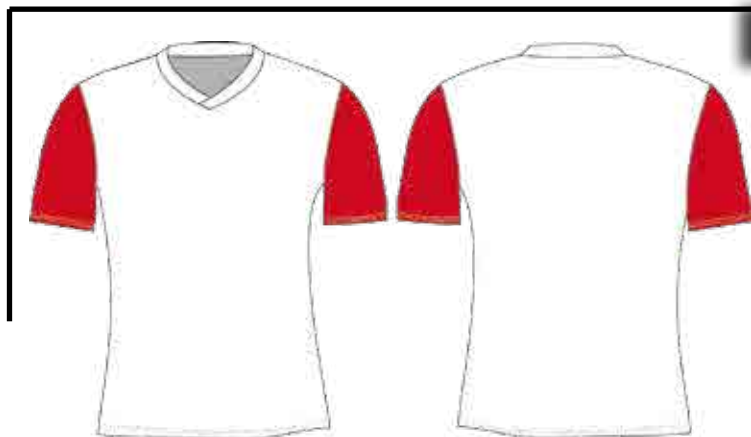

5. NUMBER AND NAME PERSONALIZATION

In your order form, you can indicate the number and/or the name for each t-shirt and/or shorts. You can choose the type of letter (font) or we can help you with it.

YOUR IMAGINATION CREATES IN THE CATALOGUE YOU WILL FIND SOME EXAMPLES OF T-SHIRTS WE HAVE MADE
