SIMPLE TECHNOLOGY

Ergomaps

L'Ergonomia è la scienza mirata ad analizzare gli effetti della tecnologia produttiva sull'uomo in ambito di salute, prestazioni e comportamento.

L'attività sportiva innesca necessariamente meccanismi ergonomici e di termoregolazione, per questo è obbiettivo dei nostri prodotti aiutare l'equilibrio osmotico, mantenendo confortevole lo sforzo aerobico prolungato.

La particolare combinazione di fibre innovative, la trama del tessuto, la ricerca e i test, hanno permesso a MAPS di realizzare una linea in grado di soddisfare gli atleti più esigenti.

I prodotti ERGOMAPS sono la giusta combinazione di traspirabilità, confort, resistenza e termoregolazione, consigliati anche per il benessere di tutti i giorni.

Ergonomics is the science which aims to analyze the effects of productive technology on man regarding health, performance and behaviour.

Sport activity necessarily determines ergonomic mechanisms and thermoregulation; for this reasons the objective of our products is helping the osmotic balance, guaranteeing comfort during the long aerobic effort.

The particular combination of innovative fibre, the weft of the material, the research and testing, have allowed MAPS to produce a line that will satisfy the most demanding athletes.

ERGOMAPS products combine transpiration, comfort, resistance and thermoregulation, also for everyday wellbeing.

Ergomaps

L'Ergonomie est la science visant à analyser les effets de la technologie productive, sur l'homme en matière de santé, de prestations et de comportement.

L'activité sportive implique nécessairement des mécanismes ergonomiques et de thermorégulation.

L'objectif de nos produits est d'aider aux différents équilibres pendant l'effort.

La combinaison de fibres et de tissages novateurs, de recherche et de tests sur leurs effets pour le pratiquant, ont permis à MAPS de réaliser une ligne en mesure de satisfaire des athlètes plus exigeants.

Les produits ERGOMAPS sont la juste combinaison entre le confort, la résistance et la thermorégulation, tant en effet que pour le bien-être quotidien.
